## SUMMARY

Results-driven Full Stack JavaScript Developer with over 8 years of experience creating scalable and innovative web applications. Proven expertise in both frontend and backend technologies.

## TECHNICAL SKILLS

- **Frontend** - React, Angular, HTML, CSS, Tailwind, Bootstrap, Antd
- **Backend** - NodeJS, Next.js, Nest.js, Laravel, Flask, Fastify
- **DevOps** - Nginx, Docker, Github Actions
- **Database** - MongoDB, Postgresql, MySQL, Firebase, ElasticSearch, Redis
- **Version Control** - Git, SVN

## PROJECTS

- **BidWizer** - BidWizer is a cloud-based platform that allows buyers and sellers of vehicles to connect and transact online. The platform uses a reverse auction model, where sellers compete against each other to offer the lowest price to buyers. This allows buyers to get the best possible deal on their next vehicle purchase.  
**Tech Stack:** React, Node, TypeScript, ElasticSearch, Firebase, Redis
- **LeanSpace** - Leanspace is a cloud platform for space missions that enables companies and agencies to easily build space software. This drastically reduces time & costs, keeps them in control, and boosts competitiveness.  
**Tech Stack:** React, Node, TypeScript, ElasticSearch, Postgresql, Firebase, Redis, AWS Lambda, Java
- **Photobash** - A feature-rich web app built with Angular for selling Royalty-Free Photography, Masked Images, and 3D Models. Built a powerful search engine and managed the in-app currency that is credited for purchasing on the website.  
**Tech Stack:** Angular, Node, CodeIgniter, TypeScript, MySQL

## WORK EXPERIENCE

- **Chapter247 Infotech (Oct, 2017 to May, 2023)** - Worked as Senior Software Engineer and Lead Software engineer, built and managed a team of more than 25 engineers and mentored them to become better developers.
- **Innovertica Technologie (March, 2017 to June, 2017)** - Worked as Software Engineer and helped them build their QnA product from scratch.
- **Deltabee Technologies (Aug, 2016 to Feb, 2017)** - Worked as a Software Developer and worked on different projects on different technologies.
